### Vorbereiding:

- print de bladen uit
- lamineer de bladen of plak de stroken op stevig papier
- knip de stroken uit

### Let op!

*Om dit materiaal efficiënt in te kunnen zetten, heb je aanvullende materialen nodig, bijv.:*

- *fiches*
- *knopen*
- *kralen*

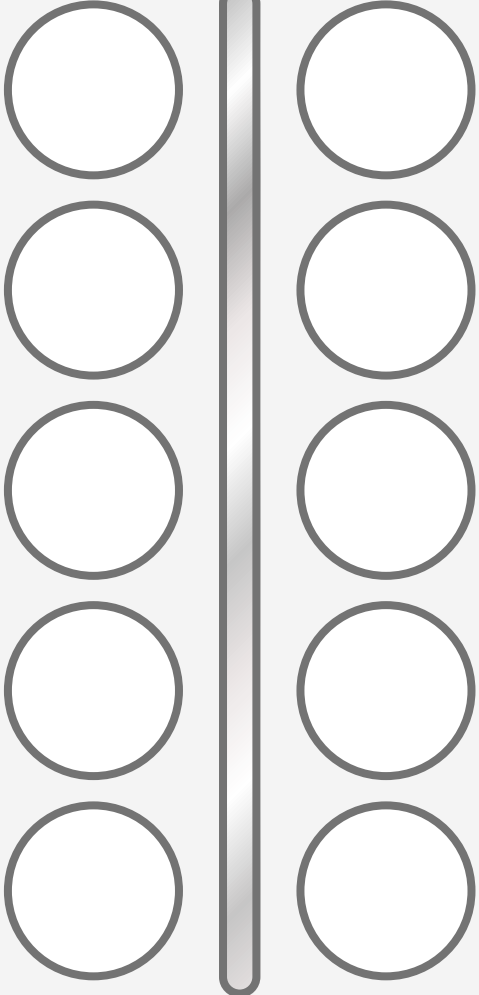

### Leerdoelen:

- herkennen van de getalbeelden in cijfers van 1 tot en met 20
- resultatief tellen tot en met 20
- getallen representeren

### Gebruik:

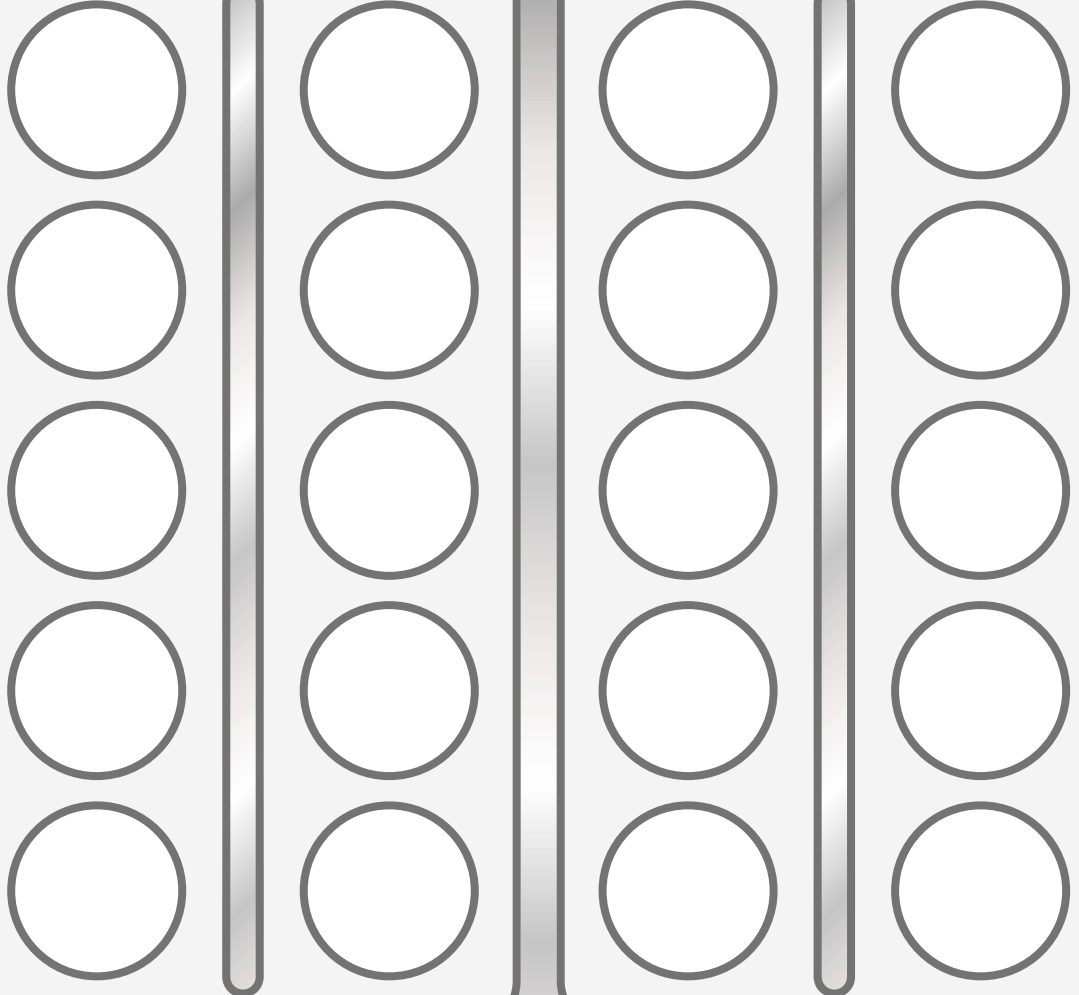

- Het kind pakt een strook en bekijkt het getal (de groene kaarten gaan tot 10 en de blauwe kaarten tot 20).
- Het kind legt evenveel telmaterialen op de strook, 1 telmateriaal (bv. knoop, fiche, kraal) per leeg rondje op de pillenstrip.
